

Promotional Products, Advertising Specialties

No matter what you call it - these items have **POWER**.

It's not a **MUG**, it's a lifesaving deliverer of morning java - and along with the gratitude we all feel for that at 6am - there's your company name and number. Think that coffee drinker thinks well of your company?

It's not a desk item - it's **24-hour advertising**. Engage people with your brand - send them something they can hold and use, every day!

According to the **PPAI** Promotional Products Association International:
Promotional products will:

- Drive traffic to your tradeshow booth
- **Improve response rates on direct mail campaigns**
 - Increase referrals
 - **Improve return business**
 - Improve employee morale
